

Artificial Intelligence in Neurology

CME WEBINAR

WEDNESDAY, NOVEMBER 4, 2026,
6:00 PM– 7:30 PM

PROGRAM

06:00 pm – 06:05 pm Welcome & Opening Remarks
Moderator

06:05 pm – 06:35 pm **Artificial Intelligence in Epileptology**
06:35 pm – 06:45 pm Questions and Answers
Prof. Dr. Lukas Imbach, Medical Director of Epileptology,
Swiss Epilepsy Center (SEZ),
Klinik Lengg AG, Zurich

06:45 pm – 07:15 pm **Artificial Intelligence in Neurology: Hype or Clinical Reality?**
07:15 pm – 07:25 pm Questions and Answers
Prof. Tobias Nef, ARTORG Center for Biomedical Engineering
Research & Department of Neurology,
University of Bern

07:25 pm – 07:30 pm Farewell

Artificial Intelligence is transforming neurology – but where does it already deliver real clinical value? In this webinar, leading experts explore the potential of AI in epileptology and neurological practice. Discover how intelligent technologies may support diagnosis and treatment, and join the discussion: Is AI in neurology still hype, or already clinical reality?
