Dear colleagues

After the successful educational “Virtual Headache News” events from MTIS, IHC and EHC Congresses of the last four years, which were developed primarily for the pandemic situation, we decided to continue with this format even after COVID-19 has ceased to be the center of our daily planning.

A virtual event offers a large audience the possibility of participation even with spontaneous dial-in, and it saves travel time for professionals from all over Switzerland, who share our interest in headache.

A group of headache experts from Switzerland will attend the International Headache Congresses IHC and EHC 2025 and summarise the most important scientific presentations, research results and highlights for you in a 2-hour virtual meeting.

We would like to invite you to this subsequent virtual meeting with live broadcasting and the opportunity to exchange ideas with the experts.

Together with our sponsors we would therefore like to invite you to

Virtual Headache News from IHC and EHC 2025
on Wednesday, 21st January 2026 from 18:00–20:00

Please see the registration information on the back page.

We are looking forward to a large number of participants!

Andreas Gantenbein Christoph Schankin Nina Bischoff

Scientific Committee

Prof. Dr. med. Andreas Gantenbein
Prof. Dr. med. Christoph Schankin
Dr. med. Nina Bischoff

Program 21st January 2026
